The Deacon's Race.

were seeing to the proper bringing up

of their only and well beloved nephew.

iorses and a negro boy, who took care

of them, and those horses and that

weather began to soften in the spring,

the boy and I were accustomed to ride

the horses to a pond to water, which

was perhaps three quarters of a mile

from the stable, half of which distance

was through the town. It soon became

our custom when the horses had

finished drinking to let them go full

tilt for home, and the speed they attained was startling, so fast in fact,

that we soon had to take to the alleys

and run them to the stable that way.

I suppose we had been keeping this up

for three months, and the horses had

got so that they would scarcely wait

to drink before they wanted to be off,

when one Sunday my uncle and aunt concluded they would go to meeting in

the country-my uncle was a staid and

severe deacon in the Presbyterian

Church-and for a change they rode

the horses instead of driving them.

As luck would have it, they came back

to town over a road that led by the

pond where Jim and I watered the

horses, and as it was about watering

time as they passed, they stopped and

let the horses drink. Of course, uncle

and aun't had perfect confidence in

their 'critters,' and were not expecting

any demonstrations, but as soon as

those horses had taken a good, long

pull at the water and lifted their heads

to take a look around it seemed to

occur to them all at once that that was

the time to cut and run for the stable.

three deacons in opposite churches,

galleries in the cool of the evening

fill all the town, and people soon began

to run out on the streets and inquire

what was going on. At last the horses

reached the stable, and there, without

any trouble at all, they stopped and

waited to be let in, as usual. I don't

me when my part, though wholly

unintentional, in the affair, became

for my aunt, who had an eye to the

ludicrous, and she got me off with only

one application of the hickory, while

the negro boy got twice as much. My

uncle was not on pleasant terms with

me for several months, however,

because he was jollied about his horse

race for a long time, and every fresh

jar he would get on it would react

upon me. I may say, in conclusion, though, that my aunt did not stand by

me when he said that Jim and I would

suffer severe pains and penalties if

there were any more running of the

A Homesick Hippopotamus.

During Bayard Taylor's visits to the

zoological gardens in London he no-

ticed a hippopotamus which lay in its

tank apparently oblivious of its sur-

roundings. Entering into conversation

with the keeper one morning, he was

told that the creature refused to eat,

and was gradually starving itself to

death. "I fancy it's homesick," added the keeper. "He's a fine specimen, and it seems a pity we should

lose him, but he's moped ever since

the keeper who had charge of him on board the steamer left. He pays no

town with an old uncle and aunt, who The cause for all this admiration is the fact that Pilot has just proved to everybody that he is really worth Among their possessions were two more, in certain emergencies, than the entire police department of the townthough in Rutland the police are few. boy were my especial delight. After Heretofore Pilot has been looked upon my first winter in town, and when the as a sort of nuisance, a worthless expense; but never did a greater change

of sentiment take place. A year ago several prisoners escaped from the house of correction, and Pilot was purchased by the State that he might track and assist in bringing back any one who in future broke jail. But nobody ran way, and naturally there was nothin, 'or him to do. A few days ago, however, Bertha.

the pretty 4-year-old daughter of John C. Putnam of the little settlement of Mill village disappeared. All the neighbors joined in the search for her. Night and day the hunt continued, but not a trace of the little one could be discovered. The parents were in despair; it was feared that the child had been kidnapped. Finally the father, in desperation suggested that possibly Pilot could find some trace. Anxious to do anything that would n the least relieve the father's mind, the officials took the dog to Mill vil-

The dog was then given a tiny shoe that had been worn by the child the day before she disappeared. This he held in his mouth for a minute: then he dropped it and sniffed the air. He seemed puzzled, and the knowing ones were beginning to remark that they knew the hound would not be of any use. It really seemed as if the animal understood their words, for he suddenv put his nose to the ground and was off like a shot, dragging his keepers

"And they did. My eye, how they did. Merely Nominal.

The Budget Saunterer's fel doctor, has retired from practice. A few years ago he inherited a large fortune, and since then his time has been so occupied managing his estates that it is impossible for him to continue his professional work. Not only has he taken in his shingle, but he also discourages the practice of calling him 'doctor," so that in his neighborhood the title has been generally dropped. However, every few days the Irish maid-of-all-work, when she answers the doorbell, has to elplain that though the proprietor of the establishment is a duly graduated physician, he is not

and does not wish to respond to calls for his medical skill. It happened that one day there appeared at the door a caller of a very different kind. He was the agent of some religious society, anxious rather to bleed others than to be bled themselves. So, naturally, he was eager to post himself as to the church relations of his proposed subject in order to make the appeal more effectual. His first question began in the usual

'Is-er-Mr. Hammersleigh "Sure an' he is, sorr."

s a Christian ?" To Bridget this was something of poser, but she rose supremely to the ccasion with her accustomed answer: "Sure, an' he is, yer honor. But he's not practicing it lately.'

"Can you tell me whether or not he

Christianity in China.

A copy of an interesting tablet, connecting the early history of Christianity with the ancient Empire of China, has been received by the Woman's College and placed in its rapidly grow ing Oriental collection. It is a "rub" made upon rice paper,

seven feet and a half long by three feet wide, thus reproducing in exactness the tablet recently found near Se-San-Foo, which was, fifteen hundred years ago, the capital of the Chinese Empire.

In the year 633 of the Christian era priest of the Nestorian faith, an earsect of Christianity widely popular in the East, arrived in China from Rome. This priest, whose name was Olopeen or Olueun, won the favor of the reigning Emperor, Tai-Tsing, and the latter encouraged the spread of Christianity in his Empire, built churches and had Chinese believers ordained as Christian priests.

The tablet records this early attempt to Christianize China, part of it being in Chinese characters and part in Nestorian characters. There is given an abstract of Christian doctrine, an account of the coming of Olopeen, bringing sacred books and images, and the history of the church down to the year 780. There is also a recapitulation of these facts in eight syllabled verse written in 781.

A Son's Love.

Professor Drummond might insert in a new edition of "The Greatest Thing in the World" this touching story, told in the Contributor, of the winning power of love:

A mother was arrested for intoxication and arraigned before the judge. 'Seven dollars and sixty cents fine,' said the judge, sternly. But the wo man had not a cent. Her 7-year-old boy said to his tiny sister: "Come on; we've got to get that

noney or mam'll have to go to jail. Just wait, Mr. Judge, an' we'll get it!' The children hurried out of the courtroom, and, going from store to store, solicited contributions to "keep mam from going to jail," the boy promising to return the money as soon as he could earn it. Soon he came back, and, laying a

handful of change on the desk, exclaimed : "There's two dollars, Mr. Judge an' I can get no more now. I ain't as

big as mam, an' I can't do as much work; but if you'll just let me go to jail 'stead o' her, I'll stay longer to make up for it." The bystanders wiped their eyes and policeman exclaimed: 'Your mother sha'n't go to jail, my

lad, if I have to pay the fine myself." "I will remit the fine," said the The mother in tears and clasping

her boy, solemnly promised that she would lead a better life.

Went Up on the Cellar Door.

A farmer of Cynthian township, says the Sidney, Ohio, Journal, came to town one day this week to make a few purchases. It happened that he called at an establishment where an elevator is in use. In order to furnish the articles desired, it was necessary to go into an upper story, and the salesman said to his customer:

"Just get on, and we'll go up. The startled granger looked around, and said:

"On where?" He was given the desired information, and they started up. The upward flight was evidently something new to the farmer, and he attested his

appreciation of it by remarking: 'This beats all nation, don't it?' The salesman smilingly remarked that he rather thought it did. In the meantime, a son of the farmer became impatient, and came into the storeoom below, looking for him. The ather, seeing his son stepped to the

"You can't. come up here, son; I came up on the cellar door, and it's up here yet !''

hatchway and said:

the body is made to yield pleasantly and without internal protest to the change it is undergoing. Headache and nausea are dispelled, the depressed and nervous feeling yields to one of pleasurable expectation. Danger to life of both mother and child is avoided, and she passes through the ordeal quickly and her recovery is rapid.

"I know one lady, the mother of three children, who suffered greatly in the birth of each, who obtained a bottle of "Mother's Friend" of me before her fourth confinement, and was relieved quickly. All agree that their labor was shorter and less painful," John G. Polhill, Macon, Gs. Sent by Mall, on receipt of price, \$1.00 PER BOTTLE, Book "TO EXPECTANT MOTHERS" mailed free. Sixty Days in the Air.

French aeronauts are making active preparations for a voyage to the pole by palloon in much the same manner as was proposed last year by Andree. The aero nauts Godard and Surcouf have decided finally to make the attempt. This journey s to take place in the spring of 1898, and ne preparations for the undertaking have already been started. An immemse balloon is being constructed for them, and will be named "La France." It is to contain 10,847 cubic meters, equal to almost 100,000 cubic feet of gas, and its circumfeet. It will carry without trouble 26,000 pounds, and thus it will be possible to fit out a balloon expedition consisting of seven men. These will include Godard as the commander, Surcouf as his mate, two second aeronauts, so that two practi-cal men will always be in charge of the at present practicing his profession, balloon; an experienced Artic explorer, a meteorologist, and a physician and chemist. The meteorologist is to be a delegate of the Geographical society of France; the physician a navy-surgeon, to be selected by the minister of marine. Particular care is being taken in the onstruction of the air-tight cover of the palloon in order to reduce the loss of gas during the journey to a minimum. Twelve small balloons will be attached to the cutside of the monster balloon and act as gasometers; that is, replace the actual loss of gas in the big balloon continually, and in this way it is proposed to keep the balloon floating in the air for 60 days. The inner arrangement will permit the balloon to retain its circular shape, even if a large quantity of gas should be lost. Godard made his calculations on the basis of striking a wind not exceeding four meters (13 feet) per second, so that the interest feet ships a special property to the Rehring.

> siderable loss of gas. The two daring ex-plorers hope to be able to exhibit their oon at the Paris exposition of 1900, with the simple inscription, "Retour du Pole-Nord" (Returned from the North Pole.)—Philadelphia Record.

journey from Spitzbergen to the Behring Straits, a distance of over 2,000 miles, might be accomplished in less than 10

days. According to all authorities the

vinds in these regions ordinarily exceed

the above figure and average almost double the speed, so that a much faster voyage might be anticipated. A ballast

of 13,000 pounds will enable the aeronauts to reach great altitudes, even after a con-

A Home Thrust.

Col. Robert G. G. Ingersoll has publicly apologized for suicide and even advocated it. He did this about one year ago, and was admonished that the result of his teaching might be disastrous. We do not know that the frequent cases of self-slaughter which have happened since he spoke can be directly traced to his utterances, but circumstantial evidence may demonstrate that he is not blameless. A few days ago, the Colonel's clerk, Robert J. Wilson, attempted to destroy his life with prussic acid. The New York Herald recounts the following tragedies which oring the Colonel face to face with his teachings:

several years a student in Col. Ingersoll's office, shot himself to death in Lincoln Park, Chicago, last Saturday.

Norman S. Mussey, who had been the Colonel's chief clerk, took his life on August 11, last. He jumped from a station of the Sixth avenue elevated railroad and ran up the track toward an approaching He leaped from the track to the ground

William Sanford Lawton, who was for

when he found that he was pursued by a brakeman. Both his legs were broken by the fall, and he died from his injuries a few days later.

Mss Hattie Cooper, a third cousin of Col. Ingersoll, and her mother, Mrs. Sz-

rah B. Cooper, were suffocated from coal gas in their home in San Francisco on December 11 last. Miss Cooper had fre-quently spoken to her mother of the time "when they could go together." She turned on the gas. Col Ingersoll learned

ing.
It may be that Colonel Ingersoll takes

Paine, and listened patiently for an hour to speeches eulogizing his memory and belittling Christianity, but when finally a speaker counselled the company to teach their children to become free thinkers she arose and quietly but emphatically said: "Mr. President, I should like to say that when I give up my religion and my much better than anything you have offered to-day." Then she walked out, and for a full minute there was silence.

OVERWORK

Nervous Prostration Complete Recovery by the Use of

Ayer's Sarsaparilla

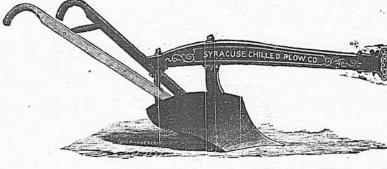

"Some years ago, as a result of too close attention to business, my health failed. I became weak, nervous, was unable to look after my interests, and manifested all the symptoms of a decline. I took three bottles of Ayer's Sarsaparilla, began to improve at once,

and gradually increased my weight from one hundred and twenty-five to two hundred pounds. Since then, I and my family have used this medicine when needed, and we are all in the best of health, a fact which we attribute to Ayer's Sarsaparilla. I believe my children would have been fatherless to-day had it not been for Ayer's Sarsaparilla, of which preparation I cannot say too much."-H. O. HINSON, Postmaster and Planter, Kinard's, S. C.

FOR CASH CASH ONLY.

Low Prices are Created Here! ND MAINTAINED HERE. Others A may make them for a day or so, but we hold them down all the time with a firm hand, while you enjoy the benefits. All our bargains are genuine. We have mitators. All good things have. If the mitations were equal to the genuine we'd be glad, for the public would then be the greater gainer. We tell of bargains all the time, and back up the telling with bargains. We offer this week for Cash and Cash only—

Are your Biscuits like your door knobs? Are your Biscuits like your door knobs? or are they tough, leathery and heavy enough to give an ostrich dyspepsia? Probably you are not to blame for it. It may be you use a poor grade of Flour. If you are tired of tough bread and hard bis-

cuits why not try our "Perfection Flour." Every Barrel guaranteed to give the very Every Barrel guaranteed to give the very finest satisfaction. We positively guarantee there is not a finer quality Flour made. If you are paying \$6.00 per barrel for some other Grocer's best, try our "Perfection" at \$5.65 per barrel.

If you use the Filthy Weed we can please you both in quality and price. Don't buy your Tobacco until you have seen ours. If you do you have lost money.

We have got the Goods, the prices and the quality, and can suit the wants of all.

the quality, and can suit the wants of all. JNO. A. AUSTIN & CO. And Low Prices.

Jotton.

With careful rotation of crops and liberal fertilizations, cotton lands will improve. The application of a proper fertilizer containing sufficient Potash often makes the difference between a profitable crop and failure. Use fertilizers containing not less than 3 to 4%

Actual Potash.

Kainit is a complete specific against "Rust."

All about Potash—the results of its use by actual experiment on the best farms in the United States—is told in a little book which we publish and will gladly mail free to any farmer in America who will write for it.
